

Modernization Of Bar Area

OBJECTIVE:

The prime objective of modernizing the bar area is for the benefit of current and future members. More income streams will be created by updating the bar surrounds, with new table tops, modern comfortable chairs, and a modern fresh color scheme. A cosy and inviting atmosphere will enable us to try other types of functions or opening hours of the bar. For example, a Friday night opening with finger food and footy on the TV, or a similar thing on a Sunday afternoon.

Updating the bar to a modern and inviting look can only help in our attempt to increase club participation and membership.

BENEFITS:

- Add vibrancy by updated décor (furniture and painting) and atmosphere which will lead to a wider scope for event bookings and functions. For example: Friday night footy/finger food, community gatherings and parties.
- Create a modern clubhouse that will be an attractive destination for the next generation of local bowls enthusiasts.
- Sustainable long term growth by an increase in patronage.

The following chairs have been ordered with matching deep red upholstery. 24 of the first and 8 of the second. The costs of the new table tops and chairs is \$13,000. Both the chairs and tables are high quality products that will not only be extremely comfortable for members, but also give the new bar area a modern vibrant look.
